PROFESSIONAL SUMMARY

Final-year B.Sc. Computer Science student seeking the Software Engineering Intern role in Pune. Working knowledge of Python and SQL, with hands-on experience in relational database design, Git/GitHub, and full-stack fundamentals. Keen to ship small, well-scoped features and bug fixes on a live product, learn from code review, and write clean, documented code.

EDUCATION

1. B.Sc. Computer Science (Final Year), 2024 – 2027 — JSPM University, Wagholi, Pune, CGPA: 6.06/10
2. Higher Secondary (HSC) — Jaibhawani Shikshan Prasarak Mandal, Arts & Science College, Patoda, 75.67%
3. Secondary School Certificate (SSC) — 83.40%

TECHNICAL SKILLS

1. Programming Languages: Python, SQL
2. Databases: MySQL, PostgreSQL (schema design, joins, subqueries, stored procedures, triggers, indexing), Firebase
3. Version Control & Tools: Git, GitHub, VS Code, Postman, Jupyter Notebook
4. Web: HTML, CSS, JavaScript; frontend, backend and database fundamentals (Full Stack internship)

ACADEMIC PROJECTS

1. **Lost and Found Management System** — MySQL | SQL
   - Designed a normalized relational database with 4+ related tables managing 500+ item records.
   - Wrote complex SQL queries (joins, subqueries, aggregates) to match lost and found items, cutting manual matching time by ~40%.
   - Implemented stored procedures and triggers to automate claim-status updates, reducing manual data-entry errors.
   - Optimized queries with indexing, improving search and retrieval performance by up to 30%.
2. **SC Farm Marketplace** — HTML | CSS | JavaScript (Web Development Project)
   - Built a Maharashtra-focused marketplace connecting farmers directly with customers to make fresh produce easier to discover.
   - Implemented location-based farmer and product discovery with a 20 KM delivery radius, showing nearby farmers with distance and delivery availability.
   - Added product search, categories, filtering, sorting, availability details, shopping cart and checkout workflow.
   - Developed farmer product listings, management and a dashboard in a responsive, user-friendly interface.
   - Strengthened skills in frontend development, JavaScript, UI/UX design and location-based functionality.
   - Live project: https://lnkd.in/dWfr7E-w

INTERNSHIP / INDUSTRIAL TRAINING

1. **Machine Learning & Data Science Virtual Intern** — EduSkills Academy (AICTE, Ministry of Education) (Apr 2026–Jun 2026)
   - Completed an 8-week internship applying SQL and Python to real-world datasets (1,000+ records) for preprocessing, feature engineering and model evaluation.
   - Performed EDA and data cleaning across multiple datasets, improving model prediction accuracy by ~15%.
2. **Web Full Stack Developer Virtual Intern** — EduSkills Academy (AICTE, Ministry of Education) (Jan 2025–Mar 2025)
   - Completed a 10-week internship covering frontend, backend and database fundamentals, including designing relational schemas with 5+ related tables and writing SQL queries.

CERTIFICATIONS

1. Machine Learning & Data Science Virtual Internship — EduSkills Academy / AICTE (2026)
2. Web Full Stack Developer Virtual Internship — EduSkills Academy / AICTE (2025)

ACHIEVEMENTS AND ACTIVITIES

1. Awarded the “Outstanding” grade — ML & Data Science Virtual Internship, EduSkills Academy (AICTE), 2026.
